**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Line 21 of claim 1 and line 5 of claim 3 refer to the appendix B of the specification. Section 2173.05(s) of the MPEP states that where possible, claims are to be complete in themselves. Incorporation by reference "is permitted only in exceptional circumstances where there is no practical way to define the invention in words and where it is more concise to incorporate by reference than duplicating a drawing or table into the claim." If the Applicant feels that this is an exceptional circumstance then a statement of such should be directed to the Examiner, and the Examiner will consider the matter further. Otherwise the algorithm referred to in appendix B should be written into the claim.

Claim 3 is further rejected as the metes and the bounds of the claim cannot be ascertained. In this case the algorithm should be rewritten in the claim and the corresponding words changed to "output" where appropriate.

***Allowable Subject Matter***

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. 112, second paragraph, set forth in this Office action.

4. Claims 2-3 would be allowable if rewritten to overcome the rejections under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
